Proposed Merger of the Merging Sub-Fund into the Receiving Sub-Fund

Dear Shareholder,

We are writing to advise you of a proposal to merge the Merging Sub-Fund into the Receiving Sub-Fund (the “**Merger**”). The Merging Sub-Fund and the Receiving Sub-Fund are sub-funds of ANIMA Funds plc (the “**Company**”).

The Company is an open-ended umbrella investment company with variable capital and segregated liability between sub-funds incorporated with limited liability in Ireland under the Companies Act 2014 with registration number 308009 and established as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. Number 352 of 2011), as amended (the “**UCITS Regulations**”).

The Company has appointed ANIMA SGR S.p.A as management company of the Company (the “**Manager of the Company**”). The Manager of the Company is regulated as a funds management company by Bank of Italy.

Details of the procedure by which the Merger of the Merging Sub-Fund will be effected, the action you should take and the implications for you as a shareholder of the Merging Sub-Fund (a “**Shareholder**”, collectively the “**Shareholders**”), are set out in this Circular and the Appendices attached hereto.

I. The Proposal

It is proposed that the Merging Sub-Fund be merged into the Receiving Sub-Fund in accordance with Irish Laws which implement the Directive 2009/65/EC of the European Parliament and of the Council, as amended (the “**UCITS Directive**”) and Commission Directive 2010/42/EU.

Such Merger will result in the Assets and Liabilities (as defined in **Appendix A**) of the Merging Sub-Fund becoming the property of the Receiving Sub-Fund in exchange for the issue of shares in the Receiving Sub-Fund to the Shareholders.

Details of the Merger in respect of the Merging Sub-Fund are set out in **Appendix A**.

A table highlighting the relevant terms and procedures and fees of the Merging Sub-Fund and the Receiving Sub-Fund is included at **Appendix B**.

An extraordinary general meeting of the Merging Sub-Fund has been convened for 10:00 AM (Irish time) on 11 March 2024 for the purpose of considering and voting on the Merger of the Merging Sub-Fund (the “**Extraordinary General Meeting**”).

A notice of the Extraordinary General Meeting, at which the necessary resolution will be put to Shareholders, and a form of proxy are attached at **Appendix C**.

II. Background and Rationale

Given the existing low level of assets under management in the Merging Sub-Fund, the Company, in conjunction with the Manager of the Company, has decided to merge the Merging Sub-Fund with the Receiving Sub-Fund in order to offer more efficient management in terms of both the portfolio and the fixed costs being incurred.

In addition, the Merger would allow to streamline the Company’s range of flexible strategies on offer, thus resulting in the offering of the Receiving Sub-Fund, which will have a lower synthetic risk indicator (ie. 4) than the Merging Sub-Fund (ie. 5).

None of the costs of the Merger will be borne by the Merging Sub-Fund or the Receiving Sub-Fund in accordance with Regulation 64 of the Irish UCITS Regulations. Please refer to Section 8 entitled “Costs, Charges and Liabilities” of Appendix A to this Circular for further information.

Given the above, the Directors of the Company (the “**Directors**”) are recommending to Shareholders that they vote in favour of the Merger at the Extraordinary General Meeting.

III. Important Considerations – Impact of the Merger on Shareholders

You should be aware of a number of important issues:

- (i) The Merging Sub-Fund is registered for public sale in Italy, Switzerland and Spain; the Receiving Sub-Fund is registered for public sale in Italy, Switzerland, Germany and Spain.
- (ii) If the Merger is approved, Shareholders of each launched and existing share class of the Merging Sub-Fund will receive shares of the Receiving Sub-Fund as follows:

MERGING SUB-FUND		RECEIVING SUB-FUND
Classic B Class ISIN: IE00BVC3D932	will merge into	Classic B Class ISIN: IE00B7FN3F89
Prestige Class ISIN: IE00BKS8L350	will merge into	Prestige Class ISIN: IE0008003968
Silver Class ISIN: IE00BKS8L244	will merge into	Silver Class ISIN: IE00B07Q3W33

I Class ISIN: IE00BJBQBS44	will merge into	I Class ISIN: IE0032464921
-------------------------------	-----------------	-------------------------------

- (iii) The risk measurement methodology used to calculate global exposure in the Receiving Sub-Fund will be the commitment approach, which is the same methodology used by the Merging Sub-Fund.
- (iv) A full comparison of the fees applicable to the relevant share classes in the Merging Sub-Fund and the relevant share classes in the Receiving Sub-Fund is set out in Appendix B of this Circular. The fees for the share classes of the Merging Sub-Fund which will merge with the share classes of the Receiving Sub-Fund are identical.
- (v) The investment objective and policies of the Merging Sub-Fund and the Receiving Sub-Fund are set out in full in Appendix B. The investment objective and investment policies are sufficiently similar such that the Investment Manager of the Merging Sub-Fund does not consider it necessary to materially rebalance or change the composition of the Merging Sub-Fund's portfolio of assets to conform to the Receiving Sub-Fund's investment policies.
- (vi) The Merger is not expected to impact the performance experienced by Shareholders, rather it is anticipated that the Merger will have a positive effect for the reasons outlined above.
- (vii) Any income accrued on securities as at the Effective Time (as defined below in section VII) will be reflected in the valuation of the relevant security as at the Effective Time and will transfer automatically to the Receiving Sub-Fund as part of the transfer of the relevant security, to be held by State Street Custodial Services (Ireland) Limited, the depositary of the Company (the "**Depositary**"), on behalf of the Receiving Sub-Fund.
- (viii) As at the date of this Circular, the share classes of the Merging Sub-Fund involved in the Merger have a synthetic risk indicator of 5 and the share classes of the Receiving Sub-Fund involved in the Merger have a synthetic risk indicator of 4.
- (ix) The risks of the Merging Sub-Fund and the Receiving Sub-Fund, as set out in their Key Information Documents, are described in Appendix B of this Circular.
- (x) The voting rights of the Shareholders of the Merging Sub-Fund and Receiving Sub-Fund are similar in all material respects. You should review the constitutional document of the Company for further details in respect of your voting rights.

As set out above, a table highlighting the relevant terms and procedures and fees of the Merging Sub-Fund and the Receiving Sub-Fund (including the difference in rights of Shareholders of the Merging Sub-Fund and Shareholders of the Receiving Sub-Fund) is included in Appendix B of this Circular.

IV. Conditions applying to the Merger

The Merger is conditional upon its approval by way of a Special Resolution of the Shareholders, which requires that the resolution be passed by a majority of Shareholders consisting of seventy five per cent (75%) or more of the total number of votes cast present in person or by proxy, who cast votes at the Extraordinary General Meeting.

V. Taxation Implications of the Merger

You should be aware that the Merger may constitute a taxable event for you depending on your jurisdiction, and that your tax treatment may be changed following the implementation of the Merger, potentially resulting in, for example, the payment of capital gains tax. Accordingly, you are advised to consult your professional advisors as to the tax implications of the Merger under the laws of the countries of your nationality, residence, domicile or incorporation.

VI. Right of Redemption

If you decide that you do not wish to invest in the Receiving Sub-Fund, irrespective of whether or not you voted for or against the Merger, prior to the Merger you will have the opportunity to redeem your shares in the Merging Sub-Fund at no extra cost (other than payment of normal local taxation (if any) and transaction charges as may be levied by the relevant Correspondent Bank) on any Dealing Day for the Merging Sub-Fund (as defined in **Appendix B**) up to and including the last Dealing Day for the Merging Sub-Fund, being 19 March 2024 (the “**Last Dealing Day**”). For each Dealing Day (including the Last Dealing Day), the Dealing Deadline is 1:00PM (Irish time) on the Business Day preceding the relevant Dealing Day.

If the Merger is approved in respect of the Merging Sub-Fund, all Shareholders (including those Shareholders who voted against the proposal or who did not vote at all) who do not exercise their redemption rights set out herein, shall become shareholders of the Receiving Sub-Fund and shall be able to exercise their rights as shareholders of the Receiving Sub-Fund with effect from 27 March 2024.

VII. Effective Time/Date of the Merger

The effective time of the Merger is 11:59PM (Irish time) on 26 March 2024 or such later time and date as the Directors and the Depositary shall agree as being the effective time of the Merger and as shall be notified to Shareholders (the “**Effective Time**”).

Shareholders may continue to deal in shares in the Merging Sub-Fund until and including the Last Dealing Day.

VIII. Documents for Inspection and Additional Information Available

The Key Information Documents of the Receiving Sub-Fund are attached hereto at **Appendix D** for your review.

Further, copies of the following documents (which will be provided to Shareholders free of charge upon request) may be obtained from the registered office of the Company at 78 Sir John Rogerson's Quay, Dublin 2, Ireland during office hours of each bank business day in Ireland until the time of the conclusion of the Extraordinary General Meeting (or any adjourned meeting of the Shareholders):

IX. Review by the Depositaries of the Merger Proposal

The Depositary has confirmed, in accordance with the requirements of Regulation 59 of the UCITS Regulations, that it has verified the type of merger and the UCITS involved, the Effective Time and that the rules applicable, respectively, to the transfer of the assets and the exchange of shares as set out herein are in accordance with the UCITS Regulations and the constitutional document of the Company.

X. Verification

Shareholders should note that as part of the implementation of the Merger, State Street Fund Services (Ireland) Limited (the **"Administrator"**) (as administrator on behalf of the Merging Sub-Fund and the Receiving Sub-Fund) has details of the Shareholders and all documentation received from or in relation to each Shareholder. This includes, without limitation, anti-money laundering documentation. Notwithstanding this, Shareholders may be required to verify their identity in accordance with applicable anti-money laundering requirements for the purpose of receiving shares in the Receiving Sub-Fund.

APPENDIX A MERGER OF THE MERGING SUB-FUND

1. Governing Law

The Merger will in all respects be governed exclusively by and construed in accordance with the laws of Ireland.

2. Transfer of Assets and Liabilities of the Merging Sub-Fund (the “Assets and the “Liabilities”)

- 2.1 The proposed Merger will involve the delivery and/or transfer of the Assets and Liabilities, equal to the net asset value of the Merging Sub-Fund to the Depositary in its capacity as depositary of the Receiving Sub-Fund in exchange for the issue of shares in the Receiving Sub-Fund to Shareholders in the Merging Sub-Fund on the Effective Time.
- 2.2 Any income of the Merging Sub-Fund accrued but not yet paid out by the Merging Sub-Fund as at the Effective Time will form part of the Assets transferred to the Depositary in its capacity as depositary of the Receiving Sub-Fund and will be treated as income of the Receiving Sub-Fund.
- 2.3 Any taxes and duties directly related to the Merger, including transfer taxes and stamp duty, payable on the transfer of the Assets and/or Liabilities, as a result of the implementation of the Merger, will be paid by the Manager of the Company.

3. Last Dealing Day for Shares in the Merging Sub-Fund

In order to allow the Administrator to accurately calculate the value of the Assets of the Merging Sub-Fund to be transferred into the Receiving Sub-Fund at the Effective Time, the Directors have determined that the 5 Business Days immediately prior to the Effective Time will not be Dealing Days (as defined in the Company’s prospectus) in respect of the Merging Sub-Fund and that no dealing in the shares of the Merging Sub-Fund will take place on those days. Accordingly, the last Dealing Day for shares in the Merging Sub-Fund shall be 19 March 2024.

4. Issue of Shares and Dealings in the Receiving Sub-Fund

- 4.1 At the Effective Time, Shareholders holding Classic B Class shares and/or fractions of Classic B Class shares will receive Classic B Class shares of the Receiving Sub-Fund, Shareholders holding Prestige Class shares and/or fractions of Prestige Class shares will receive Prestige Class shares of the Receiving Sub-Fund, Shareholders holding Silver Class shares and/or fractions of Silver Class shares will receive Silver Class shares of the Receiving Sub-Fund and Shareholders holding I Class shares and/or fractions of I Class shares will receive I Class shares of the Receiving Sub-Fund. Subject to and in accordance with Clause 4.2 below, Shareholders

will receive Shares in the Receiving Sub-Fund equal in value to their shares in the Merging Sub-Fund immediately prior to the Effective Time.

- 4.2 The number of shares in the Receiving Sub-Fund to be issued to Shareholders in the Merging Sub-Fund shall be determined by the Administrator in accordance with the following formula:

$$S = \frac{(R \times NAV \times ER) \times (1-T)}{SP}$$

where:

- S = the number of shares in the Receiving Sub-Fund that will be issued;
R = the number of shares held by the Shareholder in the Merging Sub-Fund immediately prior to the Effective Time;
NAV= the last net asset value per share of the relevant class in the Merging Sub-Fund as at the Valuation Point on the relevant Dealing Day prior to the Effective Time;
ER= the currency conversion factor (if any) as determined by the Administrator;
SP= the net asset value per share (or initial offer price, as applicable) of the relevant share class in the Receiving Sub-Fund, on the relevant dealing day;
T = any taxation which may be payable by persons beneficially entitled to shares in any jurisdiction and which the Manager of the Company or its agents on behalf of the Company are legally obliged to withhold.

- 4.3 Fractions of shares in the Receiving Sub-Fund may be issued where any part of the value of shares in the Merging Sub-Fund represents less than the initial issue price for one share of the relevant share class in the Receiving Sub-Fund, provided however, that fractions shall not be less than 0.001 of a share.
- 4.4 Since shares in the Receiving Sub-Fund will be issued to Shareholders in the Merging Sub-Fund at the net asset value per share (or initial offer price, as applicable) of the relevant share class in the Receiving Sub-Fund as set out in Clause 4.2 above, this may result in the number of shares held in the Receiving Sub-Fund being different to the number of shares held by Shareholders in the Merging Sub-Fund.
- 4.5 Following the Merger, dealings in shares of the Receiving Sub-Fund issued pursuant to the Merger shall commence on 28 March 2024 in accordance with the prospectus of the Company relating to the Receiving Sub-Fund.

5. Valuation

- 5.1 For the purposes of the Merger, the value of the Assets of the Merging Sub-Fund will be calculated as at the valuation point immediately prior to the Effective Time by the Administrator in accordance with the relevant provisions of the Memorandum and Articles of Association of the Company, which value will be validated by the Auditor. The Auditor will validate the criteria

used to evaluate the Assets and the Liabilities and the method used to determine the exchange ratio as well as the actual exchange ratio calculated on the Effective Time of the Merger.

5.2 The first valuation point of the Receiving Sub-Fund after the Merger will be on 27 March 2024.

6. Auditor Validation

The Auditor will validate the following as at the Effective Time:

- (i) the criteria adopted for the valuation of the assets and liabilities as at the Effective Time; and
- (ii) the calculation method of the exchange ratio referred to in section 4.2 above as well as the actual exchange ratio determined at the Effective Time.

7. Ownership Confirmations

Not later than 5 Business Days (in respect of the Receiving Sub-Fund) after the Effective Time, notifications confirming the ownership of and number of shares in the Receiving Sub-Fund issued pursuant to section 4 above will be sent by the Administrator to, or to the order of, the persons entitled thereto. Each notification shall be sent by post or facsimile and shall be addressed to the person entitled at his/her address appearing in the register relating to the Merging Sub-Fund at the Effective Time (or in the case of joint holders at the address of the person whose name stands first in the register of the Company).

8. Costs, Charges and Liabilities

The expenses in relation to the Merger, including the costs of the Extraordinary General Meeting (and any adjournments), the costs associated with the transfer of the Assets and Liabilities of the Merging Sub-Fund to the Receiving Sub-Fund will be borne by the Manager of the Company.

9. Cancellation of Shares and cessation of existence of the Merging Sub-Fund

Following the Merger, all of the shares of the Merging Sub-Fund will be cancelled and contract notes held by Shareholders will no longer be valid. Thereafter, the Merging Sub-Fund will cease to exist on entry into effect of the Merger.

10 Anti-Money Laundering Requirements

The anti-money laundering requirements applicable to the Merging Sub-Fund are the same as those applicable to the Receiving Sub-Fund. Further anti-money laundering documentation from existing investors of the Merging Sub-Fund may be required if it has not been supplied in full or

is out of date or is otherwise deemed insufficient for anti-money laundering purposes under current anti-money laundering legislation or best practice by the Administrator.

11. Amendments

In circumstances where it becomes necessary or advisable to do so, alterations in the terms and method of implementation of the Merger may be made in accordance with the requirements of the Central Bank provided that any such alterations are, in the opinion of the Directors and in consultation with the Auditors, as appropriate, of a non-material nature. Any amendments must be in accordance with the requirements of the Central Bank. Shareholders will be notified, as soon as possible, of any such amendment including any amendment to the proposed timetable.

Long/short strategies will be implemented in order to exploit mismatches in the market valuation of assets across indices, sectors and equities. These strategies will involve buying assets which the Manager considers to be undervalued and selling assets considered to be expensive. The aim is to have a positive absolute return completely uncorrelated with market dynamics as the strategy is intended to be market neutral. In certain market conditions, the use of these strategies will be put in place to preserve the value of equity positions by short-selling futures or swaps which are closely correlated with the underlying position and therefore reducing the Merging Sub-Fund volatility and equity exposure with greater efficiency (for example, if the Merging Sub-Fund is over exposed to a specific sector it may be more efficient to hedge this exposure with the sector index rather than the broad market index).

The Merging Sub-Fund's will not replicate an index nor will the Merging Sub-Fund invest directly in indices. The Merging Sub-Fund may use financial derivatives on financial indices comprised of eligible assets. Financial indices used as underlying of futures, options and total return swaps will generally be commonly used European equity indices and their sub-indices. Financial indices used as underlying of credit default swaps will generally be commonly used European credit default swap indices (such as the iTraxx Europe index) and their sub-indices. Indices used as underlying of financial derivative instruments have a monthly or less frequent rebalancing.

The return of such indices is not affected by rebalancing and the rebalancing frequency has no effects on the costs within the strategy.

Information on the OTC counterparties to OTC contracts entered into by the Merging Sub-Fund and the underlying of these OTC Contracts is described in more detail in the main body of the Prospectus in the section entitled "Financial Derivative Instruments" and "Collateral Management and Counterparty Selection Process". OTC counterparties with the Merging Sub-Fund will be selected in accordance with the limits and conditions laid down by the Central Bank and will be credit institutions within any of the categories set out in Regulation 7 of the CBI UCITS Regulation, regulated financial institutions and investment firms authorised in accordance with MiFID.

interest rate risk of the Receiving Sub-Fund's investments. The Receiving Sub-Fund may use listed or OTC futures and/or options on equities and/or equity indices in order to hedge the equity market exposure of securities and/or assets, and, in general, in order to hedge or reduce the overall equity market risk of the Receiving Sub-Fund's investment. The Receiving Sub-Fund may buy futures or buy call options on equities indices and/or equity securities in order to gain additional exposure to equity markets, and to enhance performance and/or to manage equity market risk to reflect a view on the future direction of the market or index, to achieve a risk reward position, for yield enhancement, to lock an arbitrage profit, to change the nature of a liability and/or to modify the portfolio risk without incurring large transaction costs. The Receiving Sub-Fund may also use futures to gain exposure to financial indices comprising commodities.

The Receiving Sub-Fund may also engage in Financial Derivative Instruments transactions in order to partially / totally hedge the exposure of an existing Financial Derivative Instrument position held in the portfolio. This will apply also where the Receiving Sub-Fund sells put options on interest rates and/or bonds in order to reduce the risk and/or the cost of an existing put option with the same expiration date held in the portfolio or where the Receiving Sub-Fund sells call options on interest rates and/or bonds in order to reduce the risk and/or the cost of an existing call option with the same expiration date held in the portfolio.

Forward currency contracts and/or options may be used to hedge the currency exposures of the Receiving Sub-Fund such as instruments denominated in a currency other than Euro. The Receiving Sub-Fund may also use forward foreign exchange contracts and/or options to hedge or reduce the Receiving Sub-Fund's overall exchange rate risk and/or to alter the currency characteristics of instruments held by the Receiving Sub-Fund where the Manager considers it appropriate to retain the credit quality of a particular instrument but wishes to obtain a currency exposure consistent with the Receiving Sub-Fund's investment objective. The Merging Sub-Fund may also use interest rate swaps in order to hedge fixed interest rates into floating rates, or to manage the Merging Sub-Fund's interest rate exposures to certain instruments and/or to obtain or preserve a desired return or spread at a lower cost than by direct investment. They can also be used in combination with futures contracts or government bonds to take a position on a pure credit risk trade, stripping out the directional component of the future or the bond contract, and/or to obtain or preserve a desired return or spread at a lower cost than through a direct investment in the underlying.

The Merging Sub-Fund may use futures, options and total return swaps on equities, equity indices, equity baskets and/or equity portfolios in order to hedge or to reduce the equity risk of the portfolio, or to manage the Merging Sub-Fund's equity exposures of certain instruments. The Receiving Sub-Fund may use credit default swaps on stocks, on indices or on a basket of indices, and may use total return swaps on equities, equity indices, equity baskets, equity portfolios or a basket of equity indices (in each case gaining Euro and/or multi-currency exposure). Swaps may be used to hedge fixed interest rates into floating rates, or to manage the Receiving Sub-Fund's exposures to certain instruments and/or to obtain or preserve a desired return or spread at a lower cost than by direct investment. The Receiving Sub-Fund may use total return swaps to gain exposure to securities and/or indices (including indices comprising commodities) in accordance with the requirements of the Central Bank.

The leverage resulting from the use of Financial Derivative Instruments will be in accordance with the requirements of the Central Bank and will not exceed 100% of its net asset value. Futures, options and total return swaps on equities, equity indices, equity baskets and/or equity portfolios may also be used in order to gain additional exposure to equity risk.

The Merging Sub-Fund may use long positions on equities and long and/or short positions on futures, options and swaps on equities, equity indices, equity baskets and/or equity portfolios in order to realize long/short strategies. 	Redemption monies, representing less than 0.001 of a Share will not be returned to the investor but will be retained by the Merging Sub-Fund in order to defray administration costs.

Valuation Methodology	<p>The Net Asset Value of the Merging Sub-Fund or, if there are different Classes within the Merging Sub-Fund, each Class will be calculated by the Administrator as at the Valuation Point on or with respect to each Dealing Day in accordance with the Articles of Association. The Net Asset Value of the Merging Sub-Fund shall be determined by valuing the assets of the Merging Sub-Fund (including income accrued but not collected) and deducting the liabilities of the Merging Sub-Fund (including a provision for duties and charges, accrued expenses and fees and other liabilities). The Net Asset Value of a Class shall be determined by calculating that portion of the Net Asset Value of the Merging Sub-Fund attributable to the relevant Class subject to adjustment to take account of assets and/or liabilities attributable to the Class. The Net Asset Value of a Merging Sub-Fund will be expressed in the Base Currency of the Merging Sub-Fund, or in such other currency as the Directors may determine either generally or in relation to a particular Class or in a specific case.</p> <p>The Net Asset Value per Share shall be calculated by dividing the Net Asset Value of the Merging Sub-Fund or Class by the total number of Shares in issue in the Merging Sub-Fund or Class at the relevant Valuation Point rounded to four (4) decimal places 0.0001 (or rounded to such number of decimals places as otherwise disclosed in the Merging Sub-Fund Information Card of the Merging Sub-Fund as determined by the Company).</p> <p>In determining the Net Asset Value of the Company and the Merging Sub-Fund:</p> <p>(a) Investments which are quoted, listed or dealt in on a Recognised Exchange save as hereinafter provided at (d), (e), (f), (g) and (h) will be valued at last traded closing prices. listed or dealt in on more than one Recognised Exchange the relevant exchange or market shall be the principal stock exchange or market on which the Investment is listed or dealt on or the exchange or market which the Directors or their duly authorised delegate determine provides the fairest criteria in determining a value for the relevant investment. Investments listed or traded on a Recognised Exchange, but acquired or traded at a premium or at a discount outside or off the relevant exchange or market may be valued taking into account the level of premium or discount at the Valuation Point provided that the Depositary shall be satisfied that the adoption of such a procedure is justifiable in the context of establishing the probable realisation value of the investment.

- (b) The value of any investment which is not quoted, listed or dealt in on a Recognised Exchange or which is so quoted, listed or dealt but for which no such quotation or value is available or the available quotation or value is not representative of the fair market value shall be either (i) the probable realisation value as estimated with care and good faith by a competent person, firm or corporation (including the Manager) appointed by the Directors and approved for the purpose by the Depositary or (ii) the value as determined by any other means provided that such value is approved by the Depositary. Where reliable market quotations are not available for fixed income securities the value of such securities may be determined using matrix methodology compiled by the Directors by reference to the valuation of other securities which are comparable in rating, yield, due date and other characteristics.

If the settlement price is not available, the value shall be the probable realisation value estimated with care and in good faith by (i) the Directors or the Administrator or (ii) a competent person firm or corporation (including the Manager) selected by the Directors and approved for the purpose by the Depositary or (iii) any other means provided that the value is approved by the Depositary.</p> <p>(e) Derivative contracts which are not traded on a regulated market, including, without limitation, swap contracts (each an “OTC Derivative”), will be valued in accordance with market practice subject to the valuation provisions detailed in Article 11 of Regulation (EU) No 648/2012 on OTC derivatives, central counterparties and trade repositories (EMIR) and the related Commission Delegated Regulation (EU) No 149/2013. conditions prevent marking to market, reliable and prudent marking to model may be used, and may be valued either using the counterparty valuation or an alternative valuation such as a valuation calculated by the Manager or by an independent pricing vendor. Derivative contracts which are not traded on a regulated market and which are cleared by a clearing counterparty (including, without limitation, swap contracts) may be valued either using the counterparty valuation or an alternative valuation such as a valuation calculated by the Manager or by an independent pricing vendor. The Company must value an OTC Derivative on a daily basis. Where the Company values an OTC Derivative using an alternative valuation, the Company will follow international best practice and adhere to the principles on valuation of OTC instruments established by bodies such as IOSCO and AIMA. The alternative valuation is that provided by a competent person appointed by the Company and approved for the purpose by the Depositary, or a valuation by any other means provided that the alternative method of valuation is approved by the Depositary and the alternative must be fully reconciled to the counterparty valuation on a monthly basis. Where significant differences arise these will be promptly investigated and explained. Where the Company values an OTC Derivative which is cleared by a clearing counterparty, using the clearing counterparty valuation, or where the Company values an uncleared OTC Derivative using the counterparty valuation, these valuations must be approved or verified by a party who is approved for the purpose by the Depositary and who is independent of the counterparty and the independent verification must be carried out at least weekly. Where the independent party is related to the OTC counterparty and the

	<p>risk exposure to the counterparty may be reduced through the provision of collateral, the position must also be subject to verification by an unrelated party to the counterparty on a six month basis.</p> <p>Alternatively, derivative instruments which are not dealt in or traded on an exchange or market may be valued using an alternative valuation as provided by a competent person appointed by the Directors and approved for the purposes by the Depositary.</p>	
	<p>(f) Forward foreign exchange contracts shall be valued at 4.00pm (Greenwich Mean Time) on the Business Day preceding the relevant Dealing Day or, if considered more appropriate, shall be valued in the same manner as derivatives contracts which are not traded in a regulated market.</p>	
	<p>(g) Subject to paragraph (a) above units in collective investment schemes shall be valued at the latest available redemption price or net asset value of the units of the relevant collective investment scheme and if bid and offer price is available, at the latest bid price or if consistent with the valuation policy of the Merging Sub-Fund, at a mid or offer price.</p>	
	<p>(h) The Directors may value any investment using the amortised cost method in accordance with the requirements of the Central Bank. The intention to use this method of valuing securities will be disclosed in the relevant sections of the Merging Sub-Fund Information Card.</p>	

- (i) The Directors may, with the approval of the Depositary, adjust the value of any investment if having regard to its currency, marketability, applicable interest rates, anticipated rates of dividend, maturity, liquidity or any other relevant considerations, they consider that such adjustment is required to reflect the fair value thereof.
- (j) Any value expressed otherwise than in the Base Currency of the Merging Sub-Fund shall be converted into the Base Currency of the Merging Sub-Fund at the exchange rate (whether official or otherwise) which the Directors or the Administrator shall determine to be appropriate.
- (k) Notwithstanding the detailed valuation rules above, the valuation of a specific asset may be carried out under an alternative method of valuation if the Directors deem it necessary. The alternative method of valuation must be approved by the Depositary and the rationale/methodologies used should be clearly documented.

The Directors intend to apply to the Net Asset Value a sum representing a provision for Duties and Charges relating to the acquisition and disposal of investments of the Company.

Notwithstanding that subscription monies, redemption monies and dividend amounts will be held in the Umbrella Cash Account in the name of the Company and treated as assets of and attributable to the Merging Sub-Fund:

	<p>(a) any subscription monies received from an investor prior to the Dealing Day of the Merging Sub-Fund in respect of which an application for Shares has been, or is expected to be, received will not be taken into account as an asset of the Merging Sub-Fund for the purpose of determining the Net Asset Value of the Merging Sub-Fund until subsequent to the Valuation Point in respect of the Dealing Day as of which Shares of the Merging Sub-Fund are agreed to be issued to that investor;</p> <p>(b) any redemption monies payable to an investor subsequent to the Dealing Day of the Merging Sub-Fund as of which Shares of that investor were redeemed will not be taken into account as an asset of the Merging Sub-Fund for the purpose of determining the Net Asset Value of the Merging Sub-Fund; and</p> <p>(c) any dividend amount payable to a Shareholder will not be taken into account as an asset of the Merging Sub-Fund for the purpose of determining the Net Asset Value of the Merging Sub-Fund.</p> <p>In the absence of negligence, fraud or wilful default, every decision taken by the Directors or any committee of the Directors, the Administrator or any duly authorised person on behalf of the Company in calculating the Net Asset Value of the Merging Sub-Fund or Class or the Net Asset Value per Share shall be final and binding on the Company and on present, past or future Shareholders.</p>

Certain Classes may incur no investment management fee. Fees payable to the Manager shall be accrued at each Valuation Point and shall be calculated and payable weekly in arrears or at such frequency as the parties may agree from time to time. The Management Agreement provides that a minimum annual fee of €100,000 (or such equivalent amount in other currencies), is payable by the Company to the Manager notwithstanding that it may be in excess of the percentage amount specified above. The Merging Sub-Fund may incur incentive fees and this will be outlined in the Supplement of the Merging Sub-Fund.</p> <p>The Manager, in its entire discretion, may pay some or all of the fees received as commission, retrocession, reduction or rebate to some or all investors, financial intermediaries or distributors, based, inter alia, on the size, nature, timing or commitment of their investment.</p>	
Performance Fee	<p><u>Note:</u> The Incentive Fee will continue to be calculated in line with the Supplement until the Effective Time. The Merger will represent a crystallisation event – with any Incentive Fee being accrued at the time of the merger crystallising.</p> <p>Incentive Fee</p> <p>In addition to the annual investment management fee, the Manager will be paid annually from the Merging Sub-Fund an incentive fee accrued as of each Valuation Point and payable in arrears as of each Calculation Day in respect of the relevant Calculation Period. Consequently the crystallisation frequency at which any accrued incentive fee becomes payable to the Manager is annually. The incentive fee described below may be altered by agreement in writing between the Manager and the Company provided that any such alterations will be notified in advance to Shareholders and any such alterations resulting in an increase in incentive fee will require the prior approval of Shareholders.</p> <p>The incentive fee is calculated by the Administrator and any calculations are verified by the Depositary and is not open to the possibility of manipulation.</p>	<p><u>Note:</u> Following the Merger, Shareholders of the Merging Sub-Fund that enter a share class of the Receiving Sub-Fund will have their investment treated as a subscription and they will factor into the Incentive Fee calculation of that share class. No consideration for the prior performance of the Merging Sub-Fund would be applied in this instance.</p> <p>Incentive Fee</p> <p><i>Identical</i></p>

For the purpose of calculating the incentive fee in respect of a Class, the NAV per Share of that Class will be calculated after deducting all relevant fees and expenses incurred during such Calculation Period including any accrued incentive fees in respect of that Class.

The incentive fee per Share of a Class will be calculated at a rate of 15% of the increase in the NAV per Share of that Class over the last High Water Mark in respect of that Class, subject to the Incentive Fee Cap. No incentive fee will be accrued as of a Valuation Point, or payable as of a Calculation Date, until the NAV per Share of that Class exceeds the High Water Mark in respect of that Class.

Any incentive fee payable to the Manager in respect of a Class as of the last Calculation Day of a Calculation Period will be credited to the Manager as of that Calculation Day and paid within 60 Business Days of the end of Calculation Period.

The incentive fee accrued (if any) will be an amount equal to the incentive fee payable per Share (as detailed above) multiplied by the number of Shares in issue as of the Valuation Point.

The amount of incentive fee earned by the Manager in respect of any Calculation Period will be paid to and retained by the Manager regardless of the subsequent performance of the Merging Sub-Fund. If the determination of the Net Asset Value per Share is suspended on any Dealing Day the calculation of the incentive fees on that date will be based upon the next available determination of the Net Asset Value per Share and the amount of any incentive fees accrued will be adjusted accordingly.

If there are redemptions of Shares on a Dealing Day within a Calculation Period, such redemptions will be paid at the NAV per Share (less any applicable duties and charges) which shall include any accrued incentive fee which shall crystallise as of the relevant Dealing Day. The Manager shall be entitled to receive the incentive fee accrued in relation to such redeemed shares which will be paid to the Manager following the redemption of the Shares.

As the NAV per Share is likely to differ between Share classes, the amount of the incentive fee payable in respect of each Share class may also differ.

Incentive Fees (if any) are calculated based upon the increase in the Net Asset Value per Share, the calculation of which includes net realised and unrealised capital gains plus net realised and unrealised capital losses as at the relevant Valuation Point. As a result, incentive fees may be paid on unrealised gains which may subsequently never be realised.

Incentive Fee – Example

This example deals with accrual and payment of the incentive fee for the Merging Sub-Fund under different performance scenarios.

The NAV per Share at Calculation Day T-1 is equal to €5.00, corresponding to the High Water Mark of the Fund.

The following assumptions at subsequent Valuation Points are made:

	<ol style="list-style-type: none"> 1. NAV per Share as of the 1st Valuation Point of the subsequent Calculation Period T0 is equal to €5.00. Since it does not exceed the High Water Mark, an incentive fee is not accrued. 2. NAV per Share as of Valuation Point T1 increases to €5.06. Since it exceeds the High Water Mark, an incentive fee is accrued, equal to the positive difference between the NAV per Share and the High Water Mark (€5.06 - €5.00) multiplied by the incentive fee rate (10%)¹ multiplied by the current number of shares in issue for the Share Class (10,000,000). Incentive fee accrual at Valuation Point T1: $((€5.06 - €5.00) \times 10\%) \times 10,000,000 \text{ Shares} = €60,000$. €5.06 becomes the High Water Mark of the Fund. 3. NAV per Share as of Valuation Point T2 increases to €5.10. Since it exceeds the High Water Mark an incentive fee is accrued. Incentive fee accrual at Valuation Point T2: $((€5.10 - €5.06) \times 10\%) \times 10,000,000 \text{ Shares} = €40,000$. €5.10 becomes the High Water Mark of the Fund. 4. Then, two different scenarios are assumed on the subsequent Calculation Day T3: <ol style="list-style-type: none"> a. Positive Performance Scenario: NAV per Share as of Calculation Day T3 decreases to €5.07. Since it does not exceed the High Water Mark an incentive fee is not accrued. Incentive fee payable on the Calculation Day T3 is equal to the sum of the accruals made over the relevant Calculation Period: in this case the incentive fee accrued at Valuation Point T1 (€60,000) 	
--	--	--

¹ This example contemplates an incentive fee rate of 10%. The actual incentive fee rate applied in respect of a Fund will be as detailed in the relevant Fund Information Card.

plus the incentive fee accrued at Valuation Point T2 (€40,000).
Total incentive fee payable at Calculation Day T3 is equal to €100,000. The performance during the Calculation Period is positive: $((€5.07 - €5.00) / €5.00) \times 100 = 1.40\%$.

- b. Negative Performance Scenario: NAV per Share as of Calculation Day T3 decreases to €4.95. Since it does not exceed the High Water Mark an incentive fee is not accrued. Incentive fee payable on the Calculation Day T3 is equal to the sum of the accruals made over the relevant Calculation Period: in this case €100,000, the same as at point a). The performance during the Calculation Period is negative: $((€4.95 - €5.00) / €5.00) \times 100 = -1.00\%$.

Dividends	<p>It is intended that dividends may be declared only in respect of Class I Dis, and no other Class of the Merging Sub-Fund. The Directors in their sole discretion may determine to declare distributions. Distributions, if declared, will be declared up to the second Dealing Day in December in each year. Any distribution date shall be within four months of the declaration date.</p> <p>The Merging Sub-Fund may pay dividends to Class I Dis out of net investment income and realised and unrealised profits on the disposal of investments less realised and unrealised losses (including fees and expenses). In addition, the Merging Sub-Fund may pay dividends to Class I Dis out of net investment income and/or capital. The rationale for providing for the payment of dividends out of capital is to allow the Merging Sub-Fund the ability to provide a stable and consistent level of distribution to investors seeking income oriented investment solutions.</p> <p>The Company is not obliged to communicate an expected dividend rate per share to Shareholders and prospective investors, and although it may choose to do so from time to time, investors should note that any such rate may vary with market conditions. There can be no guarantee that any rate will be achieved, and in the event that there is insufficient distributable income, gains or capital in the Merging Sub-Fund to meet a specific level, investors in the Fund may receive no distribution or a lower level distribution.</p>	<i>Identical</i>

The risk indicator assumes you keep the Fund for 5 years, in accordance with the recommended holding period. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to repay the initial capital amount invested.

Other risks that are materially relevant to the Fund and which are not adequately captured in the summary risk indicator:

- **Credit Risk:** the risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon;
- **Risks associated with investing in derivative financial instruments:** the risk that the strategies implemented through the use of derivative financial instruments may cause substantial losses.

What are the risks and what could I get in return?

The risk indicator assumes you keep the Fund for 5 years, in accordance with the recommended holding period. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to repay the initial capital amount invested.

Other risks that are materially relevant to the Fund and which are not adequately captured in the summary risk indicator:

- **Credit Risk:** the risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon;
- **Risks associated with investing in derivative financial instruments:** the risk that the strategies implemented through the use of derivative financial instruments may cause substantial losses.

This product does not include any protection from future market performance so you could lose some or all of your investment.
