

GIS - Cedola Risk Control Energie Rinnovabili

GIS - Cedola Risk Control Energie Rinnovabili (the "Fund"), Anima Investment Sicav has appointed ANIMA SGR S.p.A., as its UCITS management company (the "Manager"), part of the ANIMA Holding S.p.A. group of companies.
a sub-fund of Anima Investment Sicav.
R Class Shares ISIN: LU1846701198 (the "Shares").

Objectives and Investment Policy

Investment Objective: To increase the value of your investment over the medium term, specifically, the six years beginning at the end of the initial subscription period.

The Fund is actively managed without reference to any benchmark.

Main categories of financial instruments that are the object of investment: The Fund invests directly in bonds that are issued by corporations or sovereign nations and indirectly in equities.

Up to 50% of assets may be invested in high yield lower quality bonds (as low as B-).

The Fund will also have an indirect exposure to a balanced Strategy with target equity markets of the renewable energy sector (Risky Component) and an effective overnight interest rate for the Euro currency (Non Risky Component) using swap transactions or equivalent instruments.

The Fund may use derivatives to seek investment gains and/or to reduce its exposure to currency and investment risks (hedging).

After the sixth year, the Fund will invest directly into short-term corporate and sovereign bonds.

Portfolio Managers follow the creditworthiness of each issuer whose securities are bought for one fund. A top-down approach is used with investment grade companies, while with those within the high yield rating category a bottom-up approach prevails.

Redemption of Shares: Fund shares are sold only during the subscription period and will be redeemed on request.

Benchmark: The Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices.

Income: The Fund's shares will be income shares (shares in which any income earned is distributed to investors) for the first six years, then will convert to accumulation shares (shares in which any income earned is added to the share price).

Recommendation: The Fund is designed for investors who seek for medium term capital growth according to the time horizon of the sub-fund and accept the possibility of potential capital losses. This Fund may not be appropriate for investor who plan to withdraw their money within 6 years.

Risk reward and Profile

The historical data used to calculate the synthetic risk indicator cannot provide a reliable indication about the future risk profile of the Fund.

The fund has been classified in risk/reward class 5, because the highest value between the annualized volatility of its weekly returns over the last five years and its internal volatility limit is equal to or greater than 10% and less than 15%.

The risk/reward category shown is not guaranteed to remain unchanged and the categorization of the Fund may shift over time. Please note, the lowest category on the indicator does not mean risk free.

Risks that are materially relevant to the Fund and which are not adequately captured in the risk-reward indicator:

Liquidity Risk: the risk that, in certain market conditions, financial instruments may not be readily sold, unless substantial losses are incurred.

Credit Risk: the risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon.

Counterparty risk: the risk that the counterparty to a transaction of OTC derivative financial instruments or of efficient portfolio management techniques will not fulfill the commitment assumed at the deadlines set by the contract; this risk can be mitigated by receiving guarantees from the counterparty.

Risks associated with investing in derivative financial instruments: the risk that the strategies implemented through the use of derivative financial instruments may cause substantial losses.

For further information on the risks related to the Fund please refer to its Appendix and to the section of the Prospectus entitled "Risk Factors".
