What is this product?

Type: The Fund is a sub-fund of ANIMA Funds plc (the "Company"), an open-ended investment company with variable capital incorporated in Ireland and authorised by the Central Bank of Ireland as a UCITS. The assets of the Fund are segregated from those of other sub-funds and cannot be used to pay the debts of other sub-funds of the Company.

Term: The Company has an unlimited life and there is no maturity date for this Fund.

Investment Objective: The objective of the Fund is to seek to provide an investment return. The Fund is actively managed without reference to any benchmark.

The Fund aims to achieve its investment objective by: 1) Directly investing up to 100% of its net assets in Debt Instruments and Money Market/Short Term Instruments ("Actively Managed Bond Portfolio"), with preference for government bonds of European countries; and 2) Entering into OTC Financial Derivative Instruments (which may include total return swaps and forwards) which will involve the Fund achieving a return linked to an actively managed basket of equity and/or fixed income indices ("Actively Managed Indices Portfolio"). The Manager will determine the composition of the Actively Managed Bond Portfolio depending on market conditions and on the analysis of fixed-income indicators and issuers' credit quality, in such a way to find a balance between risk/return and diversification of such a portfolio. The Fund will invest up to 30% of its net assets in corporate bonds which are both investment and non-investment grade. The Actively Managed Indices Portfolio will comprise a basket of commonly used international equity and/or fixed income indices selected on the basis of market conditions, macroeconomic indicators and other parameters.

The Fund may invest up to 30% of its net assets in deposits.

The Fund may enter into stock lending arrangements for efficient portfolio management purposes, and/or may use Financial Derivative Instruments for (i) hedging, (ii) risk reduction and/or (iii) investment purposes. The Fund may use financial leverage to increase the amount invested in financial instruments to twice the value of the Fund's net asset value. This means that if there are changes in the prices of the financial instruments the Fund could either gain or lose twice as much as it would gain or lose without using financial leverage.

The Directors of ANIMA Funds plc may decide to declare distributions which may be paid out of the capital of the Fund. Distributions, if declared, will be distributed on an annual basis.

Intended investor: This Fund is suitable for institutional investors identified on the basis of the following characteristics:

- is an Investor willing to keep the investment for a period of time in line with the Recommended Holding Period; accordingly, the Fund is suitable for Investors with a time horizon medium;
- is an Investor who can bear total capital loss as the Fund is not guaranteed and has a medium-low risk class and a medium-low risk tolerance;
- is an Investor looking for capital growth and capital income.

The Depository of the Fund is State Street Custodial Services (Ireland) Limited.

Copies of the Prospectus (including the Fund Information Card) and the annual and half-yearly reports of the Company may be obtained from the Administrator, free of charge, or by visiting www.animasgr.it.
