

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

**ANIMA Global Currencies (the “Fund”), a sub-fund of ANIMA Funds plc
I Class Shares ISIN: IE0032461802 (the “Shares”). The Fund has appointed ANIMA SGR S.p.A., as its UCITS
management company (the “Manager”), part of the ANIMA Holding S.p.A. group of companies.**

Objectives and Investment Policy

Investment Objective: The objective of the Fund is to achieve medium to long term capital appreciation.

Main categories of financial instruments that are the object of investment: The Fund invests mainly in short-term money-market instruments and/or debt securities, combined with the use of options, currency spot transactions, currency forward transactions (both deliverable and non-deliverable) and exchange traded currency futures contracts. The Fund’s investments may be listed or traded on any Recognised Exchange worldwide, denominated in any currency, such as cash, repurchase agreements, treasury bills, commercial paper, certificates of deposit, fixed- and/or floating rate transferable debt securities of all types (including corporate debt securities, bonds and freely transferable structured notes, zero-coupon and discount bonds, debentures) denominated in various currencies and issued by sovereign, government agencies, supranational entities and/or corporate issuers. The Fund will only invest in securities/instruments of investment grade or better at the time of investment or, if un-rated, which are in the opinion of the Manager of comparable quality.

The Fund may also invest up to 20% of its assets in unleveraged money market collective investment schemes which may be managed by the Manager or any of its related, associated or affiliated companies. The Fund may enter into stock lending arrangements for efficient portfolio management purposes, and/or may use Financial Derivative Instruments for (i) hedging, (ii) risk reduction and/or (iii) investment purposes. The Fund may use financial leverage to increase the amount invested in financial instruments to twice the value of the Fund’s net asset value. This means that if there are changes in the prices of the financial instruments the Fund could either gain or lose twice as much as it would gain or lose without using financial leverage.

Redemption of Shares: You can ask the Fund to buy back your Shares on any business day whether full or partial repayment of the Shares held is required. Please refer to the Prospectus for further dealing information.

Risk reward and Profile

The historical data used to calculate the synthetic risk indicator cannot provide a reliable indication about the future risk profile of the Fund.

Lower Risk Higher Risk

←-----→

Typically lower rewards Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund has been classified in risk/reward class 4, because the annualized volatility of the weekly returns of the Class over the last five years is equal to or greater than 5% and less than 10%.

The risk/reward category shown is not guaranteed to remain unchanged and the categorization of the Fund may shift over

time. Please note, the lowest category on the indicator does not mean risk free.

Risks that are materially relevant to the Fund and which are not adequately captured in the risk-reward indicator:

Counterparty Risk: The risk that a counterparty will not live up to its contractual obligations, where a fund is backed by a guarantee from a third party, or where its investment exposure is obtained to a material degree through one or more contracts with a counterparty.

Credit Risk: The risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon.

Risk associated with investing in derivatives: The impact of financial techniques such as derivatives contracts on the

Fund's risk profile where such techniques are used to a material degree to obtain, increase or reduce exposure to underlying assets. Derivative contracts can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund.

For further information on the risks related to the Fund please refer to its Fund Information Card and to the section of the Prospectus entitled "Risk Factors".
