

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

ANIMA Zephyr Global (the “Fund”), a sub-fund of ANIMA Funds plc  
I Class Shares ISIN: IE00BFZPF090 (the “Shares”). The Fund has appointed ANIMA SGR SpA, as its UCITS  
management company (the “Manager”), part of the ANIMA Holding S.p.A. group of companies.

### Objectives and Investment Policy

*This KIID should be read in conjunction with the sections entitled “Definitions” in the Prospectus and in the Fund Information Card.*

**Investment Objective:** The objective of the Fund is to provide capital appreciation.

**Main categories of financial instruments that are the object of investment:** The Fund aims to achieve its investment objective by:

1. Directly investing up to 100% of its net assets in Debt Instruments and Money Market/Short Term Instruments (“Actively Managed Bond Portfolio”), with preference for government bonds of European countries; and
2. Entering into OTC Financial Derivative Instruments (which may include total return swaps and forwards) which will involve the Fund achieving a return linked to an actively managed basket of equity and/or fixed income indices (“Actively Managed Indices Portfolio”).

The Manager will determine the composition of the Actively Managed Bond Portfolio depending on market conditions and on the analysis of fixed-income indicators and issuers’ credit quality, in such a way to find a balance between risk/return and diversification of such a portfolio.

The Fund will invest up to 30% of its net assets in corporate bonds which are both investment and non-investment grade.

The Actively Managed Indices Portfolio will comprise a basket of commonly used international equity and/or fixed income indices selected on the basis of market conditions, macroeconomic indicators and other parameters.

The Fund may invest up to 30% of its net assets in deposits.

The Fund may enter into stock lending arrangements for efficient portfolio management purposes, and/or may use Financial Derivative Instruments for (i) hedging, (ii) risk reduction and/or (iii) investment purposes. The Fund may use financial leverage to increase the amount invested in financial instruments to twice the value of the Fund’s asset value. This means that if there are changes in the prices of those financial instruments, the Fund could either gain or lose twice as much as it would gain or lose without using financial leverage.

**Redemption of Shares:** You can ask the Fund to buy back your Shares on any Thursday (or if Thursday is not a business day, on the next following business day), provided instructions are received before 5 p.m. (Irish time) two business days before. Investors can ask for full or partial repayment of the Shares held. Please refer to the Prospectus for further dealing information.

**Benchmark:** The Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices.

**Income:** The Directors of ANIMA Funds plc may decide to declare distributions which may be paid out of the capital of the Fund. Please refer to the risks outlined below. Distributions, if declared, will be distributed on an annual basis.

**Recommendation:** This Fund is suitable for investors who are willing to set aside capital for up to 5 years.

### Risk reward and Profile

The historical data used to calculate the synthetic risk indicator cannot provide a reliable indication about the future risk profile of the Fund.

Lower Risk Higher Risk

←-----→

Typically lower rewards      Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Fund has been classified in risk/reward class 4, because the internal annualized volatility limit is equal to or greater than 5% and less than 10%.

The risk/reward category shown is not guaranteed to remain unchanged and the categorization of the Fund may shift over time. Please note, the lowest category on the indicator does not mean risk free.

**Risks that are materially relevant to the Fund and which are not adequately captured in the risk-reward indicator:**

**Credit Risk:** The risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon.

**Counterparty Risk:** The risk that counterparty will not live up to its contractual obligations, where the Fund is backed by a guarantee from a third party, or where its investment exposure is obtained to a material degree through one or more contracts with a counterparty.

Dividends may be paid out of the capital of the Fund. As a result capital will be eroded and distributions will be achieved by foregoing the potential for future capital growth and this cycle may continue until all capital is depleted.

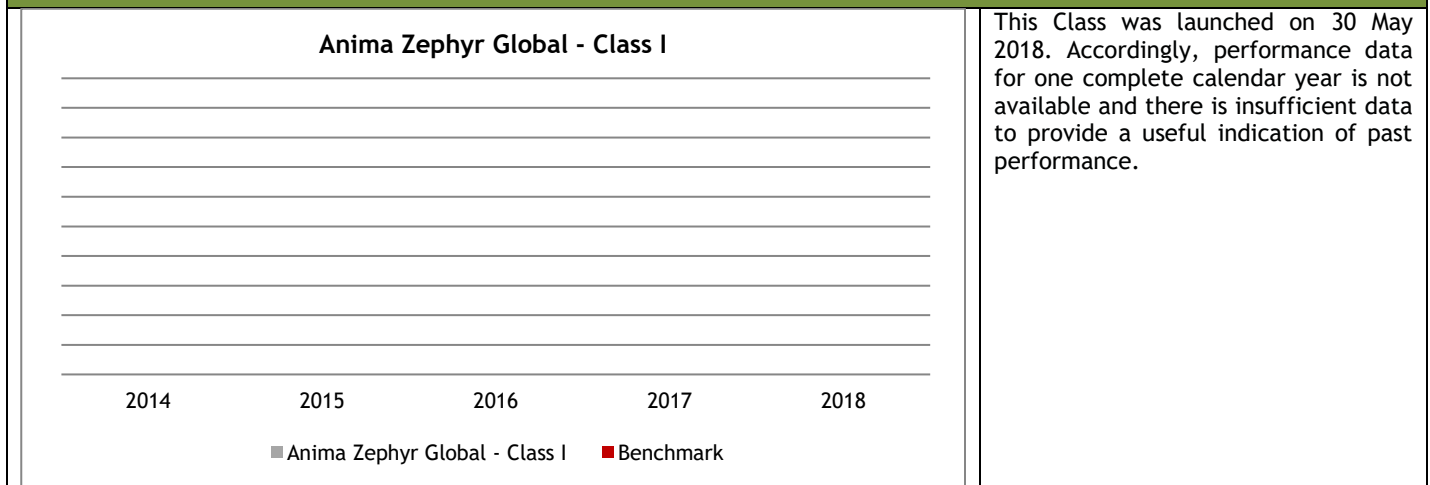

*For further information on the risks related to the Fund please refer to its Fund Information Card and to the section of the Prospectus entitled “Risk Factors”.*
